

## 05-0803 – Pediatric Bradycardia

**AUTHORITY:** Health and Safety Code Division 2.5, California Code of Regulations, Title 22, Division 9

### Routine Medical Care

- Consider and treat reversible causes
- TCP is reserved for children with **Profound Symptomatic Bradycardia** refractory to all other BLS and ALS interventions
- TCP requires a BHP consultation
- Use pediatric electrodes for children weighing <15 kg
- Use a length based resuscitation tape to determine drug doses
- Endotracheal intubation only if BVM unsuccessful
