MEMORANDUM

To: ALS Providers of the Nor-Cal EMS Region.

From: Jeffery Kepple MD
Nor-Cal EMS Medical Director

Date: October 18, 2020

Subject: Temporary MICN Reaccreditation Requirements during the COVID Pandemic.

Due to the current pandemic, safety concerns have prevented gatherings for run reviews within some areas of the region. As a result, all MICNs in the Nor-Cal region are granted the flexibility of satisfying recertification requirements with either eight (8) hours of Field Care Audit/Run Reviews or eight (8) hours of either category 1 or 2 continuing education (CE) credit. These reaccreditation options will remain in effect until the current state COVID restrictions are lifted and do not affect BLS certification requirements.

Attached is the Nor-Cal EMS [02-0303 MICN Continuing Education \(Temporary Pandemic Requirements\) Form](#). This form is uploaded to the [Nor-Cal EMS site](#) as well.

If you have any questions, please contact Nor-Cal EMS at (530) 229-3979.
